That Ragged Old Flag... by Johnny Cash

"I walked through a country courthouse square; on a park bench an old man was sitting there. I said... 'Your old courthouse is kinda' run down.' He said, 'Naw, it'll do for our little town.' I said, 'Your flagpole has leaned a little bit, and that's a Ragged Old Flag you got hanging on it.'

He said, 'Have a seat', and I sat down. 'Is this the first time you've been to our little town?' I said, 'I think it is.' He said, 'I don't like to brag, but we're kinda' proud of that Ragged Old Flag.

You see, we got a little hole in that flag there when Washington took it across the Delaware; and it got a bad rip in New Orleans with Packingham and Jackson tuggin' at its seams. And it almost fell at the Alamo beside the Texas flag, but she waved on though. She got cut with a sword at Chancellorville, and she got cut again at Shiloh Hill. There was Robert E. Lee, Beauregard and Bragg...and the south wind blew hard on that Ragged Old Flag. On Flanders Field in WW I, she got a big hole from a Bertha gun; she turned blood red in WW II; she hung limp and low a time or two.

She was in Korea and Vietnam...she went where she was sent by her Uncle Sam. She waved from our ships upon the briny foam, and now they've about quit waving her back here at home.

In her own good land she's been abused - she's been burned, dishonored, denied and refused. And the government for which she stands is scandalized throughout the land.

And she's getting threadbare and wearing thin, but she's in good shape for the shape she's in. 'Cause she's been through the fire before, and I Believe she can take a whole lot more.

So we raise her up every morning...take her down every night. We don't let her touch the ground, and we fold her up right.

On second thought I DO like to brag, 'cause I'm mighty proud of that Ragged Old Flag!"

Thank you, Johnny Cash, for your loyalty to GOD and to our country!

Freedom Is A Sacrifice!

GOD 1st, FAMILY 2nd, COUNTRY 3rd - Love, Loyalty & Truth!

Make America Great AGAIN!

If you listen to the news at all, you will hear scathing lies and untruths about President Trump. You will hear how the left is trying to degrade him...because they are so scared of the mid-term elections and the presidential elections in 2024. But pay them no mind; Donald Trump is the best thing that happened to the leadership of the United States since President Reagan. And now if you call yourself a Trump supporter, you are part of the "Super-Maga" and "Ultra-Maga" extreme, evil right-wing agenda. Wear it as a badge of honor!

Photo submitted by Archie Moody

GOD needs people who will not shrink back and hesitate in what they believe. GOD calls His people to be Alive in Spirit and Truth. Truth is an ever changing concept to people of the left, but to the people of GOD, **Truth is in the Person, JESUS CHRIST! "He is the Way, the Truth and the Life."** (John 14:6)

So let the left call loyal conservatives of the flag "Ultra-Maga Patriots". May you wear that label proudly and march with a conviction of patriotism that will last till JESUS comes -

MAKE AMERICA GREAT AGAIN!

"When you open your heart to patriotism...there is no room for prejudice!" Pres. Donald J. Trump

Where There Is No Vision, the People Become Lawless!

(Prov. 29:18)

The Generation I Grew Up In...

- A generation where I walked back and forth to school with no chaperone.
- A generation where I DID my homework so I could get out ASAP to play in the street.
- A generation where I played hide and seek and rode my bike until it got dark...and then rode some more!
- A generation where I collected sports cards; x-rated was never an issue.
- A generation where I found, collected, washed and returned empty coke bottles to the local grocery store for 5 cents each...and with that money I bought a Mountain Dew and candy bar with the money.
- A generation where I made paper airplanes with my bare hands.
- A generation where I bought vinyl albums to play on my record player, and collected photos and albums of clippings.
- A generation where I laughed under the covers in bed so my parents didn't know I was still awake...listening to the portable radio.
- A generation where we played board games and cards on rainy days.
- A generation where the TV went off at midnight after playing the National Anthem; a generation that had parents who were there to tuck in their children...warm feelings of childhood!
- A generation past that left fond memories...a generation which, unfortunately may never return!!

I loved growing up when I did!

Some Innovative Israeli Inventions...

Disk on Key – The world's first USB drive, an Israeli patent, paved the way for one of the world's most common everyday items – **the portable USB memory drive**. The technology itself is a marriage of two innovative prototypes: flash memory was developed by Toshiba in the 1980s. In 1999 Israel-based company M-Systems filed a patent for the "USB-based PC flash disk", opening the door for the development and production of the portable USB that we all know, misplace and love.

Agriculture and environment - Netafim – a desert-friendly irrigation system. Farmers in Israel struggled to grow crops in the country's arid desert climate. In 1965, engineer Simcha Blass realized that a few regular drips of water are enough to make a huge difference in plant growth. Blass designed a pipe that would drip water on to crops, making it possible to grow them while using a limited amount of water. By 1967 this "drip system" had improved crop yields by 70 percent in the Arava desert in Israel, all while reducing water usage in the region by 5 percent. The technology soon spread across the country, and across the globe. Today, Netafim is present in 110 countries, and has revitalized more than 24.7 million acres of land. The drip system that you use in your back yard comes from the brilliant minds of the Jewish scientists.

Drinking Water - Watergen – Headquartered in Petah Tikva, Watergen is producing clean drinking water out of thin air using nothing more than a portable generator. Founded in 2010 by Arye Kohavi, Watergen's devices use patented GENius technology to extract humidity from the air – i.e. vaporized water that is present in the atmosphere everywhere from rainforests to desert climates like Israel's.

The Medical Field: 1) "Wouldn't it be cool if surgeons had X-ray vision?" Xvision, a revolutionary headset that uses augmented reality to translate a patient's CT scan into a 3-D visualization. This has the potential to help surgeons during delicate procedures. "The headset superimposes a 3-D image of a patient's spine over their body, allowing surgeons to (almost) see what's under the skin without ever looking away from the operating table." 2) Millions of people owe their lives to the flexible stent – a tube-shaped device used to open up arteries to treat coronary heart disease and blockages, preventing the need for open-heart surgery. Traditional, rigid stents were made for more complicated operations and so, with the introduction of the first ever flexible stent in 1996, surgery became easier and safer. Known in the medical world as the NIR stent or EluNIR™ it was developed by Medinol, a company operated by husband-and-wife team Kobi and Judith Richter. Thanks to their genius invention, the Richters were at one point ranked among Israel's most influential and richest people, according to Forbes.

GOD has blessed His chosen people with Wisdom and Creative Ideas for the whole world!

Home Of Refuge

Saving the Lost...Loving the Unlovable

Tony and Rosa have widened their scope of ministry in Peru. In years past, they had concentrated on rescuing homeless children; but when the LORD sent them to Peru, they realized that there was a great need to help the elderly who were in the streets and did not have a future to look forward to in their later life. In the United States, the elderly have Social Security to help them when they retire, but there is not such thing like that in Peru, and the elderly are ignored and left to a fate that is horrific at best.

Tony and Rosa are giving their time and efforts to saving as many elderly and orphans as they can. And they not only provide for the young and the old but they employ many people to prepare food and maintain a Home of Refuge that is growing.

Thank you, Tony and Rosa, for all the years of sacrifice in leaving the comforts of your home in the states, devoting your time, and sacrificing so much to meet the needs of people you did not know. **I Cor. 3:7-9, "It's not important who does the planting or who does the watering; what's important is that GOD makes the seed grow. The one who plants and the one who waters work together with the same purpose, and both will be rewarded for their own hard work. For we are both GOD's workers...and you, Peru, are GOD's field."**

**Working together for the Kingdom in Peru,
Tony & Rosa**
