Houses for Vets

(continued from page 2 -Tunnel To Towers)
 More than 200 mortgage-free homes have been provided for those who lost loved ones in the 9/11 attack and fighting in Afghanistan. Tunnel To Towers is building these homes in communities with amenities for our veterans. Not only building disability access homes, they are also purchasing older hotels and converting them to apartments for homeless veterans who desire smaller spaces, with exercise facilities and cafeteria dining. On Friday, May 13th, Tunnel to Towers announced that Phoenix, AZ, Riverside, CA and Los Angeles, CA are the first pilot communities for their Veteran Homelessness program that seeks to eradicate homelessness amongst the U.S. Veteran community.

By the end of 2022, Tunnel to Towers provided housing for over 500 homeless veterans. The Foundation will also be working with U.S. VETS and the American Legion to provide comprehensive care, including mental health and addiction services, as well as skills training to homeless veterans. Tunnel to Towers and its program will undertake the crucial task of giving more than 37,000 veterans back what they've earned by their sacrifices!

FOR GOD AND COUNTRY!

What is it that makes the United States of America so patriotic? I don't mean those who are in the streets protesting, burning American flags and disrupting the American way of life. The grass roots patriotic folks who are loyal to the core and willing to fight for their freedom...that's who I honor and list as patriotic Americans. Many leaders in this world have come and gone, many wars have been won and lost. So what does that tell us about loyalty and being on the winning side? What can we learn from all the history of wars and the results of those wars? Here are profound words from a world statesman and loyalist to GOD's Jewel - ISRAEL:

BENJAMIN NETANYAHU - speaking before a joint session of Congress: "My Dear Friends, Defeating our brutal enemies requires both courage and clarity. The Israeli soldiers are undaunted and unafraid because, as the GOD's Word says, - עם כלביא יקר - "They shall rise up like lions." They've risen like lions, the lions of Judah, the lions of Israel. We need clarity in this world, and clarity begins by knowing the difference between good and evil. Yet incredibly many anti-Israel protesters, many choose to stand with evil. They stand with Hamas. They stand with rapists and murderers. They stand with violent people who came into homes and murdered the families; they found the secret latch to the hidden attic and found the parents, then they murdered the babies. These protesters stand with them. They should be ashamed of themselves!

They refuse to make the simple distinction between those who target terrorists and those who target civilians, between the democratic State of Israel and the terrorist thugs of Hamas. We recently learned from the U.S. Director of National Intelligence, that Iran is funding and promoting anti-Israel protests in America; they want to disrupt America. So these protesters burned American flags even on the 4th of July. And I wish to salute the fraternity brothers at the University of North Carolina who protected the American flag, protected the American flag against these anti-Israel protesters. They were honored at the Republican Convention in July. For all we know, Iran is funding the anti-Israel protests that are going on right now outside this building; they are there and throughout the city. Well, I have a message for these protesters: When the Tyrants of Tehran, who hang Gays from cranes and murder women for not covering their hair, are praising, promoting and funding you, you have officially become Iran's useful idiots. It's amazing, absolutely amazing...some of these protesters, in your streets, hold up signs proclaiming "Gays for Gaza." They might as well hold up signs saying "Chickens for KFC." Their future would be death if they were in Gaza or Lebanon or Iran! These protesters chant "From the river to the sea." But many don't have a clue what river and what sea they're talking about. They not only get an F in geography, they get an F in history. They call Israel a colonialist state. Don't they know that the Land of Israel was given to them by GOD...where Abraham, Isaac and Jacob prayed, where Isaiah and Jeremiah preached and where David and Solomon ruled?

We Pray for the Nation of ISRAEL!

Make America Great Again!

A MESSAGE OF PROMISE!

MELANIA TRUMP AFTER ASSASSINATION ATTEMPT, 7-13-24

“I am thinking of you, my fellow Americans. We have always been a unique union. The fabric of our gentle nation is tattered, but our courage and common sense must ascend and bring us back together as one. When I watched that intentional bullet strike my husband, Donald, I realized my life, and Barron’s life, were on the brink of devastating change. I am grateful to the brave secret service agents and law enforcement officials who risked their own lives to protect my husband. To the families of the innocent victims who are now suffering from this heinous act, I humbly offer my sincerest sympathy. Your need to summon your inner strength for such a terrible reason saddens me. A monster who recognized my husband as an inhuman political machine attempted to ring out Donald’s passion - his laughter, ingenuity, love of music, and inspiration. The core facets of my husband’s life, were buried below the political machine - what the world has made him out to be...Donald, the generous, caring man whom I have been with through the best and the worst of times. Let us not forget that differing opinions, policies and political games are inferior to love. Our personal, structural, and life commitment - until death - is at serious risk. We are all humans, and fundamentally, instinctively, we want to help one another. American politics are only one vehicle that can uplift our communities; Love, compassion, kindness and empathy are necessities. And let us remember that when the time comes to look beyond the left and the right, beyond the red and the blue, we all come from families with the passion to fight for a better life TOGETHER, while we are here, in this earthly realm.

Dawn is here again. Let us reunite...NOW! This morning, ascend above the hate, the vitriol, and the simple-minded ideas that ignite violence. We all want a world where respect is paramount, family is first, and love transcends; we can realize this world again. Each of us must demand to get it back. We must insist that respect fills the cornerstone of our relationships again. I am thinking of you, my fellow Americans. The winds of change have arrived. For those of you who cry in support, I thank you. I commend those of you who have reached out beyond the political divide – thank you for remembering that every single politician is a man or a woman with a loving family.” “What is required of you....” (Micah 6:8)

Tunnel To Towers...

Tunnel To Towers Foundation Chairman, Frank Siller shares how the foundation was formed in loving memory of his little brother, Stephen Siller, a New York City Fire Dept. firefighter who gave his life on 9/11. On the morning of September 11th, he and his brothers were getting ready to play a round of golf. Stephen had just finished a night at FDNY’s Squad 1 in Brooklyn and was on his way home to meet up with his three brothers. Frank recalls seeing the first plane strike the North Tower.

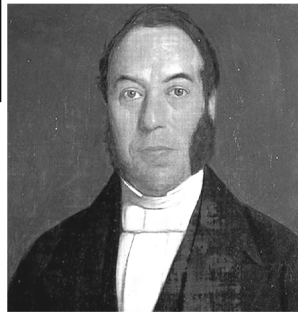

Stephen heard on his radio and turned his truck around. He went to his firehouse to grab his gear and headed towards the then Brooklyn Battery Tunnel. When he arrived, the tunnel was closed for security reasons. Stephen strapped on his gear and ran through the tunnel to get to the South Tower, where he met up with the members of Squad 1. He gave his life that day, as did over 300 NY firefighters. Frank is remembering the families of these fallen plus those who have died in battle since that day, and he has made it his life work to provide mortgage-free homes and housing for the families of the lost and homeless vets. The Awesome Trevithick Steam Locomotive!

By Mark Trevithick, Florida

I have a friend and Pow’r Partner of Call To Freedom, Mark Trevithick, who lives in the panhandle of Florida. Several months ago I was intrigued with the locomotives that helped to bring together the United States as a nation. I began researching the first locomotives, and came across a name - Trevithick - and emailed my friend, Mark, to see if he was any relation. And here came answer: “In answer to your question, Barbara...yes, we are related to Richard Trevithick, but after thirty years of research, I know that I am not a direct descend-

ent and have not found the link. Supposedly my grandfather knew that connection, but he took that information to the grave. Richard was hated by James Watt, a Scotsman, because Richard’s high pressure steam engine bested Watt’s vacuum powered steam engine that was massively large and patented. That invention was Richard’s. In 1804, Richard won a bet pulling loaded railway cars with his new steam powered locomotive in Wales. Richard’s steam engine models are still on exhibit today in Wales and Cornwall.

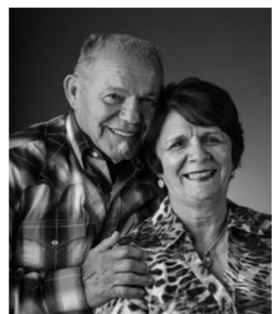

These steam engines were used extensively in the mining operations of Cornwall. Trevithick is a Cornish surname. Christmas Eve, 1801, Richard with his cousin Andrew Vivian road the first self-propelled passenger vehicle up Camborne Hill in Redruth, Cornwall. Looking at the impact of the high pressure steam engine on society and industry, it is easy to claim that Richard ushered in the industrial revolution. He is known as the Cornish Giant, extraordinarily tall for his time, and Cornwall’s most famous and prolific inventor. Like many a great inventor, he had no business sense, and when he died, was buried in an unmarked church grave in Devon. Every 3rd Saturday in April is Trevithick Day in Cornwall, and they celebrate a week to him in Australia. Two of Richard’s sons built the railway system in Japan and married Japanese wives.” Thank you, Mark, for giving us a glimpse into the history of one of the most dynamic inventions that ushered in the 19th and 20th Century industry and communication: “GOD’s Workmanship” (Eph. 2:10)

Home Of Refuge

Saving the Lost...Loving the Unlovable

REPORT FROM RAUL RIVERA: “I recently visited my father and witnessed firsthand the supernatural work that has been going on in the small village of Ccarhuacalla, Peru, nestled in the heart of the Andes Mountains. This village, with its humble dwellings and rugged terrain, might seem like a place of simple, quiet life to a casual observer. Yet, something extraordinary is unfolding within its bounds. The team, led by my father, works tirelessly to create an atmosphere of love and respect. They offer meals, medical care, companionship, and emotional and spiritual support. Each person is treated with the utmost dignity, as if they were a beloved family member. It was inspiring to see how this simple act of love could bring so much joy and comfort to those forgotten by society. And that was one of the most touching moments of my visit, witnessing the smiles and laughter of the elderly residents as they engaged in various activities organized by the ministry. Whether sharing a meal, participating in a church service, or simply enjoying a quiet conversation, the sense of belonging was palpable. These individuals, who once felt abandoned, were now part of a family that values and cherishes them. Reflecting on my visit, I realized that the impact of my father's ministry extends far beyond Ccarhuacalla. It is a call to action for all of us to look beyond our own circumstances and find ways to share our resources and talents with those in need. My experience was both humbling and inspiring. It reminded me of GOD’s Power of Love to heal and restore, even in the most challenging circumstances. I encourage everyone to consider how they can support this ministry. By doing so, we can help ensure that the elderly residents of Ccarhuacalla, and others in similar situations, can live their remaining years with dignity and compassion..”
